Curva Outdoor Color-Select Double Wall Sconce

By CWI Lighting

Description

Experience the intersection of organic artistry and modern engineering with the Curva Integrated LED Wall Light. This luxury fixture features a striking vertical silhouette that serves as a functional piece of sculpture for both interior and exterior spaces. The centerpiece of the Curva is its handcrafted glass, meticulously textured with fluid, crystalline ridges and infused with delicate bubbles that catch the light from every angle. Set against a minimalist frame, the light provides a dramatic, upward wash of illumination that highlights the natural imperfections and high-end quality of the artisanal glass. Designed with versatility at its core, the Curva allows you to customize your lighting environment with 5 CCT selectable options. Whether you prefer a warm, candle-like ambiance at 2700K or a bright, security-focused daylight at 5000K, the integrated technology puts total aesthetic control in your hands. Dimmer switch on backplate.
