Pullman Adjustable Spot

By Et2

Description

The Pullman Adjustable Spot offers effortless adjustability in architectural accent lighting. A sleek arm extends downward with a directable cylinder. A joint above the light allows for seamless repositioning for both task and ambient light while preserving a clean silhouette. A slightly recessed LED GU10 lamp in a beveled trim reduces glare and simplifies maintenance. Perfect for over a desk, as spot light for photos, or even kitchen island, the Pullman is both functional and beautifully refined.

Shown in satin nickel
