Zia Chandelier

By Generation Lighting

Description

A study in light and texture, the Zia Chandelier transforms glass into sculpture. Dozens of intricately patterned glass orbs cluster together in a luminous composition, each piece catching and refracting light to create depth, movement, and a soft, radiant glow. Suspended from a refined framework, the design feels both organic and intentional, bringing an artful, modern presence to any space. Available in three finishes.

Shown in brushed nickel / clear

Specifications
