Drifter Outdoor Hugger LED Ceiling Fan By Maxim Lighting

Description

The Drifter Hugger Fan captures the warmth of carved wood in a durable, wet-rated fan designed for outdoor living. Its 52 inch ABS blades feature sculptural depth and a graceful curve, bringing the character of solid wood with the resilience needed for patios and covered decks. An included light kit with cover plate adds flexibility, while the 2-wire DC wall control manages fan speed, dimming, and color temperature selection from 2700K, 3000K, or 4000K.

Shown in black / driftwood

Specifications
