Mars Bathroom Vanity Light

By Sonneman

Description

Inspired by the work of modern design masters, the Mars Bathroom Vanity Light leans into the geometry of repeating circles. A single piece of clear glass is sculpted with three-dimensional dimples where each circular form is illuminated by its own integrated module. Perfect for a primary bath or powder room, the Mars makes for a clean and compelling bath scone. Can be installed horizontally or vertically. Note: Remote transformer does not fit in canopy.

Shown in black brass / clear cast
