Petra Luna Table Lamp By SunLight2

Description

The Petra Luna Table Lamp features an intuitive design that encourages you to interact with light. The lamp's shade is a smooth piece of alabaster which can be repositioned on the base to control how much light escapes, and lifting the shade from the base switches the lamp off. As the lamp is dim, the color of the light warms from 3000K to an amber 1800K reminiscent of a candle's soft glow. The natural veining of the alabaster stone ensures that each piece is truly unique.

Shown in black / alabaster

Specifications
