Pantaya Pendant

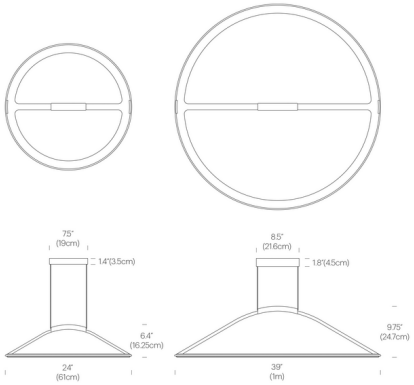

By Pablo

Description

Designed by Patricia Urquiola, the Pantaya Pendant takes its inspiration from the dramatic possibilities of modern performance fabric. A one-piece 3D-knitted mesh made from 100% recycled polyester stretches over an aluminum chassis, creating a luminous, weightless shade. The mesh conceals the structure while softly diffusing illumination from the integrated, fully dimmable LED array. Polyester webbing straps allow the Pantaya to hang horizontally or slightly tilted for directional illumination.
