By Kartell

## Description

The Stone Stool is a stool with a simple shape but with a very precious appearance. Made with essential symmetrical linear shape which is reminiscent of an hourglass, its surface is simply extraordinary: its irregular and comprised of a myriad of geometrical facets which reflect the light and create a striking and unique play of colors, much like a diamond. Because of its jewel-like nature, Stone is offered in the colors of precious stones. Suitable for indoors or outdoors. 13 inch width x 18 inch height.
