Light Stick Floor Lamp

By Catellani & Smith

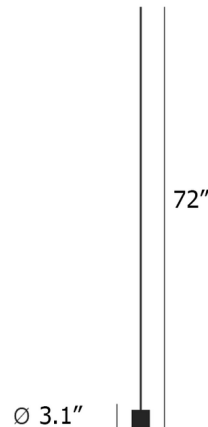

Description

The Light Stick Floor Lamp consists of a thin stick lined with LEDs atop a cylindrical, burnished metal base. Enzo Catellani sought to create a discreet, minimal lamp that emphasized the light produced. Dimmer switch located on cord. Note: This lamp needs to be 4 to 6 inches away from the wall to provide an even distribution of light. Closer to the wall will provide a spotty effect of light.

Shown in black / nickel
