Mimesi Floor Lamp

By Artemide

Description

Experience the art of subtle illumination with the Mimesi Floor Lamp, a groundbreaking design that blends seamlessly into its environment while providing remarkable light. This innovative fixture features a sleek Polished Aluminum finish, allowing it to almost disappear into the background. Its unique diffuser is crafted from PET polyester, enabling light to emanate softly and subtly. Grounding the design is a stable Polished Steel base. The Mimesi is ingeniously designed to provide both direct and indirect light from two distinct LED light sources, offering incredible versatility in ambiance. For ultimate control, dual switching located on the cord allows for independent operation of the two light sources. Furthermore, the indirect light source can be programmed to control from a wall dimmer switch, integrating effortlessly with your home's existing smart lighting systems. Customers consistently praise its invisible design and beautiful, layered light. Perfect for adding ambient lighting to living rooms, bedrooms, or modern offices, the Mimesi Floor Lamp stands as a testament to contemporary design, offering both sophisticated aesthetics and cutting-edge lighting technology.
