Lutron

DESCRIPTION

Nova T Fluorescent/LED Single Pole 120/277V 0-10V dimmer features a classic thin profile with a linear slide to select light level, slide down to off. For use with any IEC60929 Annex E.2, , and whose inrush current does not exceed NEMA410 standards for electronic ballast/driver loads of 8 A steady-state current. Refer to LED driver and ballast manufacturer's specification for 010 V- sink currents. Control has a high and low end trim to adjust the 010V-output for optimal dimming performance. Note: Matching wall plate included. Power pack not required for loads up to 8 amps. May use Lutron power pack (model PP-DV or PP347H). See Lutron P/N 369544 for higher load current or Class 2 applications.
