TruLine 1.6A RGB 10W 24VDC Plaster-In LED System

By PureEdge Lighting

Description

TruLine 1.6A, a versatile 24VDC linear plaster-in LED system, creates glare-free indoor architectural lighting. The 24VDC Plaster-In LED System recesses into 5/8 inch drywall without any joist modification. The slim extrusions, LED strips, and lenses are field-cuttable and can be ordered in 1 foot increments up to 20 feet. Includes 10 watts (2X5 watts) LED per foot with RGB (Red/Green/Blue) LED soft strip. Can be run in vertical, horizontal and diagonal directions. Included components: TruLine 1.6A channel(s), LED RGB Soft Strip, TL1.6A Junction Box, Take-Up Box, Adjustable Mounting Bars, Mounting Strap, Power End Cap, Drywall Screw, and Lenses. A DMX color changing power supply is required and must be used with PureEdge controller (CDMX1-RGBW or CDP), sold separately. Note: Required power supply, dimmer/controller, and optional accessories sold separately. Product is built to order
