Calumet 16W 9 Deg Outdoor Wall Light By Artemide

Description

Define your outdoor facades with striking illumination using the Calumet 16W 9 Deg Outdoor Wall Light. This robust and stylish fixture boasts a sleek cylindrical body with reinforced glass diffusers and watertight silicone gaskets, ensuring exceptional durability against the elements. Designed for powerful bi-directional light distribution, it casts light both upward and downward, creating dramatic effects on your walls. The direction of each light beam can be adjusted independently, allowing you to customize the lighting pattern to highlight specific architectural details or create a unique ambiance. Treated with a comprehensive 3-stage outdoor treatment (Nanotechnologies, antioxidant primer, and polyester paint), and crafted from die-cast aluminum with a choice of Grey White or Anthracite Grey finish, this light is built to withstand harsh outdoor conditions. Featuring PMMA lenses with a precise beam angle, it delivers focused and impactful light. An integrated LED light source offers powerful and efficient illumination, with selectable warm or cool color temperatures. UL Listed and IP65 rated, this fixture is suitable for wet locations, making it perfect for enhancing entryways, building perimeters, or modern outdoor living areas with a bold architectural and contemporary statement.
