Cefiso 22W Outdoor Wall/Ceiling

By Artemide

Description

Unleash versatile and powerful illumination with the Cefiso 22W Outdoor Wall/Ceiling Light, a highly adaptable fixture designed to highlight details and minimize light spill. This robust light can be mounted on a wall or ceiling, or even placed on the floor, providing a concentrated luminous flow to accentuate specific architectural features or landscaping elements. Its design boasts silkscreened tempered glass, flush with the body to prevent water accumulation, ensuring durability and a seamless aesthetic. Built for the outdoors, it undergoes a comprehensive 3-stage outdoor treatment (Nanotechnologies, Antioxidant Primer, and Polyester paint). Crafted from die-cast Aluminum with your choice of a clean Grey White or deep Anthracite Grey finish, it offers a refined presence. Featuring PMMA lenses with various selectable beam spreads, it allows for tailored light distribution. An integrated LED light source delivers powerful illumination, with selectable warm or cool color temperatures. UL Listed and IP65 rated, this fixture is suitable for wet locations, making it an exceptional choice for demanding architectural and contemporary outdoor lighting applications.
