Arco Floor Lamp By FLOS

Description

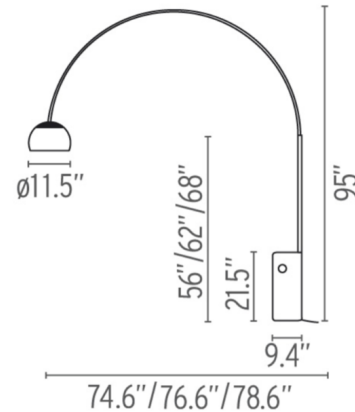

Behold a legend: the Flos Arco Floor Lamp, the original 1962 design by the visionary brothers Achille and Pier Giacomo Castiglioni. More than just a lamp, it's a celebrated piece of art, part of the prestigious MoMA collection, and a star in Hollywood classics like *Diamonds Are Forever*. Inspired by a streetlight, the Arco provides dramatic overhead lighting without requiring ceiling suspension. Its polished spun aluminum shade is mounted on an adjustable, curved stainless steel stem, allowing for precise light control and an impressive reach. The lamp is anchored by a substantial, genuine Carrara marble base with cleverly beveled corners and a strategic hole for easy lifting, a testament to the Castiglioni's meticulous attention to both form and function. Perfect for spacious living rooms, open-concept areas, or dining rooms where you need an impactful and functional overhead light source. Design Icon: Own a piece of design history, instantly recognizable and perpetually stylish. Dramatic Overhead Lighting: Achieve a sophisticated lighting effect without the need for ceiling installation. Adjustable and Versatile: The swiveling arm and adjustable arc provide precise lighting control for any setting. Premium Materials: Features a stunning stainless steel finish and a robust, genuine Carrara marble base for unmatched quality. Dimmer footswitch (for LED) or on/off footswitch (for Incandescent) located on cord.

Specifications

COLOR	N/A
