Multiple Terminal Block Transformer Accessory

By WAC Lighting

Description

The Multiple Terminal Block Accessory eliminates the need for many wires joined together in a wire nut. Terminal block is used to easily wire together multiple output connections for a neat under cabinet installation without the use of open splices. 12.5A max accommodates up to 6 output connections for 14 AWG wires. Perfect for wiring up to 3 button lights at 20 watts or 6 button lights at 10 watts. Designed for use with WAC Lighting products.
