Clizia Table Lamp

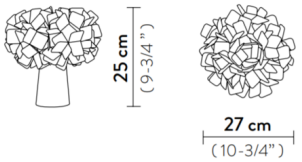

By Slamp

Description

The Clizia series, which consists of colored interlocked squares in Opalflex assembled manually, evokes the story of the mythological nymph who, repudiated by the Sun, becomes Elitropio. This range, fruit of operative hands that shape the techno polymer as if it were smooth silk, expands with an unusual and striking table version (consisting of 230 squares in Lentiflex supported by a colored base). Clizia Table Lamp features numerous squares of Opalflex clustered into an intricate weave of texture and style in White, Black, Orange, Fume or Purple finishes. Product is magnetic, allowing easy removal for cleaning.
