DESCRIPTION

Kelvin LED Green Clamp-On Desk Lamp with Hidden Cord distinguishes the table lamp from the rest of the Kelvin LED collection in anthracite, chrome, white and black. The Kelvin LED green mode is equipped with a sensor that measures the room light and automatically adjusts the lamp's light intensity to it. This way it saves and uses energy in an ideal way. The operation mode is displayed on the lamp head with an indicator light, which usually lights up in orange. Once it is touched, the indicator light then turns green and confirms that the Kelvin LED Green mode table lamp is operating in the energy-saving mode. Touch-sensor 3-step dimmer is included on lamp head. The power cord runs along the inside of the lamp arm. One 7.5 watt 120 volt 3000K LED module, 325 lumens. 21 inch width x 18.2 inch height. UL listed.
