## Mesmeri Wall Light

By Artemide

### Description

The Mesmeri Wall Light is a compelling blend of sculptural form and sophisticated light emission, designed to mask the light source while creating a beautiful upward glow. This elegant fixture features a sinuous, linear form that gracefully curves away from the wall, allowing light to emanate discreetly from its hidden source. Crafted from durable die-cast aluminum, the Mesmeri is available in a variety of refined finishes: luminous Satin Copper, classic Painted White, understated Painted Silver Grey, or sleek Polished Aluminum, offering versatile aesthetic integration into diverse interiors. An integrated LED light source provides efficient and powerful illumination. You can choose between a 2700K (a warm, cozy light) or 3000K (a slightly less warm, still inviting light) color temperature. The Mesmeri Wall Light is an ideal choice for enhancing hallways, creating ambient lighting in living rooms, or adding a touch of modern artistry to any wall surface.
