Dome 12V Path Light

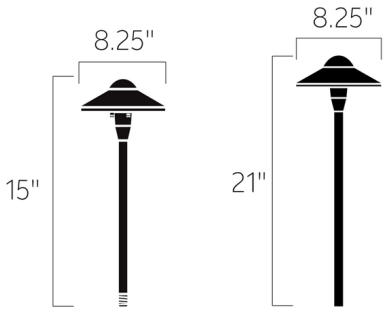

By Kichler

Description

The Dome Path Light is a durable, practical solution for landscape lighting, featuring thick-wall aluminum construction for withstanding harsh outdoor elements. Its simple, versatile aesthetic works well in many design settings and it casts a pool of light ideal for illuminating sidewalks, stone pathways and lawn areas. The light can also create a hint of intrigue by highlighting boulders, plant beds and other landscape features. Includes an 8 inch slotted in-ground stake and locknut, 24 inches of usable #18-2, SPT-1W leads, and cable connectors. Notes: A transformer is required, sold separately. This fixture is to be used only with a transformer rated a maximum of 300W (25 amps) 15V. The 15 inch fixture is only available in Textured Architectural Bronze.
