## Aileron Linear Wall Sconce By SONNEMAN

### Description

The Aileron Linear Wall Sconce dramatically bathes a surface, column, or architectural element with a soft radiance. Light panel rotates up and down to direct light. Available in three lengths with a Bright Satin Aluminum or Textured White finish. For a sleeker, more minimal look, install Aileron without the optional side rails. This installation is not compatible with a standard 4 inch octagonal junction box and requires the use of an outlet box. For installations compatible with a standard 4 inch octagonal junction box, order Aileron with side rails.

Shown in bright satin aluminum
