Tam Tam Pendant

By Marset

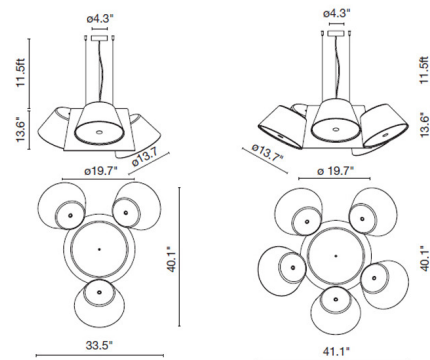

Description

The Tam Tam Pendant is a new perception in the world of lamps, which extols repetitiveness by focusing on the archetypal lampshade: light sources pointed in different directions, geometrically arranged to invoke a feeling of organized chaos. It consists of a central shade made of Semi Matte lacquered aluminum in Black or Off White with three or five Semi Matte satellite shades in a variety of different colors. The outer satellite shades can be rotated 360 degrees by means of a swivel mechanism. Opalescent methacrylate bottom diffusers soften the light.

Shown in black central shade / black satellite shades

Specifications
