Vent Bettina Wood Ceiling Fan

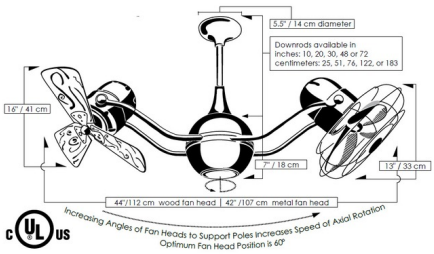

By Matthews Fan Company

Description

The Matthews-Gerbar Vent Bettina Wood Ceiling Fan brings fluid lines, gently curving arms and quiet rotation to your space. The fan heads can be infinitely positioned in 180 degree arcs for optimum air movement. The greater the angles of the motors to the horizontal support rods, up or down, the faster the axial rotation. A slow, controlled axial rotation is achieved by both fan head position and fan blade speed. The 360 degree rotation can circulate heat and and air condition more effectively that traditional fans. Available in a variety of finishes with solid, ecologically harvested Brazilian Mahogany blades. Features a 19 degree blade pitch and 16 inch diameter per head. Includes a flat ceiling canopy, one 10 inch downrod, and a 3 speed Decora-style wall control in White. UL and cUL listed. Limited lifetime warranty. Additional downrod lengths and vaulted ceiling canopy sold separately.

Shown in polished copper / mahogany tone
