DESCRIPTION

Aurora LED 3.3 Inch Aperture Round Edge Trimless Downlight with Housing is a specification grade, recessed adjustable accent fixture for plaster or drywall construction. A flush mounted rigid plaster plate, which is finished into the ceiling, maintains a flat finish. Combining the knife edge 3.3 inch aperture with the Aurora dome and tilt gear hidden behind the lamps creates a clean internal look. Fixture offers hot aiming with 0 to 45 degree vertical adjustment and 362 degree horizontal rotation without beam clipping. Precision machined gear adjustment is concealed behind the lamp. Features self locking tilt and manual locking horizontal rotation. Includes snoot to control internal light spill. The snoot secures the lamp to the pan tilt mechanism and allows for easy relamping. Housing is made of die formed aluminum and includes one 12 volt 15 watt electronic low voltage transformers for MR16 LEDs. Housing is IC and Air-Tight, suitable for remodel or new construction. Dome features an anodized soft haze finish. Hides electrical hardware and tilts for easy access to junction box and transformer. One 12 volt MR16 LED 7-9 watt bulb, equivalent to a 50 or 65 watt halogen, is required, but sold separately. Only use LED retrofit lamps designed for use in enclosed fixtures. Compatible with most electronic low voltage dimmers. Refer to attached spec for list of compatible LED MR16 bulbs and dimmers. ETL listed. Title 24 compliant when used with Vivid 3 7.5 watt MR16 LED from Soraa, sold separately. Housing: 14.75 inch length x 12.1 inch width x 5.75 inch height.
