IL9 FlexScape LED Inground Luminaire

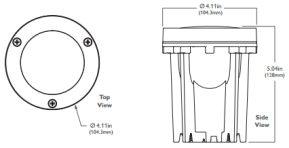

By Hadco by Signify

Description

IL9 FlexScape LED Inground Luminaire is designed for optimal LED performance and superior flexibility. The luminaire creates visual interest for pathways, walls, columns and foliage. Its rugged injection molded housing installs directly into the soil. Features molded-in brass inserts for repeatable opening and closing, and lens ring secured with three screws that clamp lens and molded silicone gasket into place. Includes 10 watt single Luxeon M LED with choice of 3000K or 4000K color temperature, 70CRI, and 12 volt Class 2 driver with integral switch providing customer access to the adjustment between four light levels. Low iron tempered clear glass lens with molded gasket which slips onto lens without tools. Zoomable optic made of injection molded clear acrylic with select surfaces textured. Lens provides narrow 15 degree to medium 35 degree beam pattern, depending on the position, or wide 60 degree flood output. ETL listed for wet locations. IP67 rated. 5 year warranty. 4.11 inch diameter x 5.04 inch height. Requires 12 volt remote transformer, sold separately.
