

BRAND Juno Lighting

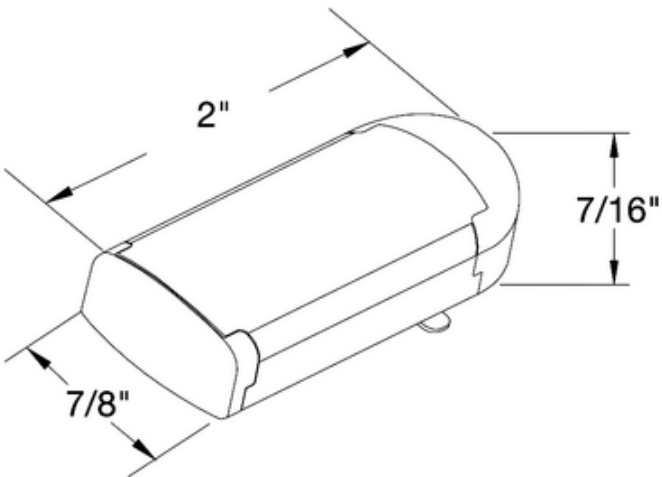

DESCRIPTION

TL214 Trac 12 Color LED Module provides a simple, economical, flexible way to add a splash of color to any environment. Constructed of high-temperature polycarbonate available with rich illumination, these long-life, low-profile modules are compatible with standard Juno Trac 12 and Trac 12/25 trac systems, operating at 12VAC. These miniature LED modules replicate the light output and distribution of 5-10W xenon lamps while reducing energy consumption by over 85-percent. They can be placed anywhere along the trac. 50,000-hour service life at 70-percent initial lumen maintenance. UL listed. 2 inch length x .9 inch width x .4 inch height. For use with Juno Lighting Trac 12 and Trac 12/25 low voltage trac systems. See manufacturer specification for lamp spacing/footcandle options.
