Cloudy Pendant

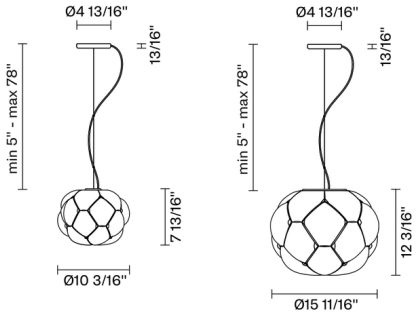

By Fabbian

Description

Cloudy was created using extremely complex steel molds which have given it an almost magical lightness, like a glass cloud floating in the air. When switched on, Cloudy reveals all its luminosity and evokes the feeling of sunlight after the rain. Originally conceived as an art piece, the initial concept to turn Cloudy into a production element required the creation of the complex mold design unlike any other used in glass blowing. Note: Both lamp options available for 15.7 inch size only.
