## Wire Table Lamp

By Verpan

### Description

The Wire Table Lamp is defined by the chrome-plated steel wire framework that widens at the top to support the white hemispherical plastic shade. The bulb is contained in a small, also hemispherical metal reflector, which guides the light to the inside of the shade. The wire frame gives the design a distinctive, yet very light and non-intrusive appearance, and the white shade offers plenty of ambient light. On/off switch located on the cord. UL and CE listed.

Shown in chrome / white
