

**BRAND**

PureEdge Lighting

**DESCRIPTION**

The SS5C Soft Strip provides tunable color temperatures of commercial-grade 90+CRI dynamic/ Tunable White 2K6K light which can be set and dimmed anywhere from 2000K to 6500K. Dynamic/ Tunable LED allows user to select desired colors which recreate natural light at different times of day. Sold in 1 foot increments up to 20 feet and may be cut every 2.4 inches. Product is built to order. Some unfinished surfaces may require screw-in mounting clips, sold separately. Soft Strip is compatible with solderless Snap & Light Connectors for making turns and custom configurations, sold separately. Snap & Light Power Connector is required and sold separately. A DMX color changing power supply or 2XK 0-10 power supply is required and sold separately. 0-10 power supply requires two dimmers --one for intensity and one for color temperature. DMX power supply must be used with PureEdge controller (CDMX1-2XK). Note: Required power supply, Snap & Light power connector, dimmer/ controller, and optional accessories sold separately.
