

BRAND Brand Van Egmond

DESCRIPTION

Fractal Chandelier bring order in chaos, find logic in confusion and recognize patterns in the opaque. However, what to make of the puzzle of the exact yet endless repetition found at times around us? Fractal is a natural phenomenon as well as a mathematical set that exhibits a repeating pattern, displayed at every scale. The organized chaos of the reflecting elements of the Fractal disperses the light beautifully in all directions. Includes canopy cover for US junction box.

Shown in: Matte Black
