## Quarter Linear Wall / Ceiling Light

By Fabbian

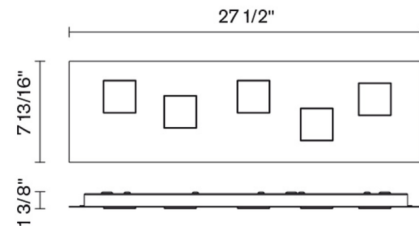

### Description

Just like a design that has yet to take shape on a blank page, the Quarter Linear Wall / Ceiling Light takes form and inside a thin layer of aluminum. Light is directed to the inside of small polycarbonate cubes that give the illusion of being painted directly onto the ceiling. The wide beam and low profile of the Quarter allows them to be used in place of recessed downlights. TRIAC dimming.

Shown in black / white

### Specifications
