Acorn Pendant

By Umage

Description

The Acorn Pendant, designed in Denmark by Jakob Rudbeck, is like a breath of fresh crisp air. Listen to the sound of the wind playing with the leaves. Admire the small, delicate acorns lying at the roots of the majestic oaks. This is a memory you want to keep. It's simple and picturesque. Acorn resembles this delicate nut, consisting of three parts, a soft Black or White silicone cup, an inner kernel in a distinctive metallic Polished Steel, Polished Brass, or Polished Copper finish covered by a smooth outer shell of Clear glass, all interlacing in a dainty symphony and hanging from a matching White or Black cord. Choice of plug-in or hardwired canopy mounting. The Acorn may be small, but it holds a bright world inside. UL listed.

Shown in white / polished steel

Specifications

COLOR	Polished Steel
