Chlorophilia Suspension

By Artemide

Description

The Chlorophilia Suspension is an ethereal and captivating lighting fixture, transforming LED elements into a stunning sunburst display of luminous breadth and width. This artistic design evokes natural forms, creating a unique and immersive light experience. Its signature phytomorphic elements, meticulously crafted from molded PMMA (polymethyl methacrylate), feature a gently wavy texture and an uneven, stepped section. These intricate details are not purely aesthetic; they ingeniously function as optical lenses, enhancing light distribution and casting beautiful patterns of light and shadow on surrounding surfaces. Constructed from lightweight yet durable aluminum, the Chlorophilia Suspension combines robust engineering with a delicate, organic aesthetic. It's an ideal choice for creating a striking focal point in a living room, dining area, or a double-height entryway, infusing the space with a vibrant, natural-inspired glow.

Specifications

COLOR Transparent
BODY FINISH Polished Aluminum
WATTAGE 41.6W
DIMMER Low Voltage Electronic
DIMENSIONS 30.7"W x 19.7"H
INTEGRATED LED MODULE 1 x LED/41.6W/120-277V LED
COUNTRY OF ORIGIN Italy

Technical Information

PRODUCT DIMENSIONS Canopy: 9.8" diameter
LAMP LIFE 50000 hours
COLOR RENDERING 93 CRI
LAMP COLOR 3000K
LUMENS/WATT 63.73
LUMINOUS FLUX 2651 lumens

Shown in polished aluminum / transparent

standard length
min. 19 11/16" - max. 78 3/4"
extended length
min. 19 3/4" - max. 216"
