Equilibrist Desk Lamp

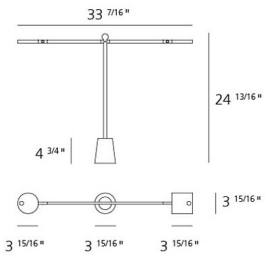

By Artemide

Description

The Equilibrist Desk Lamp is a marvel of modern design and ingenious functionality, resembling a high-tech traffic light that artfully balances two distinct LED light sources. This award-winning fixture, honored with a Wallpaper Design Award in 2015, redefines task lighting with its innovative approach. Crafted from sleek Black metal, the Equilibrist features two independent diffuser heads that each rotate around a vertical axis. This unique mechanism allows them to emit non-symmetrical light, providing highly customizable illumination. Each light source operates separately with its own included dimmer switch, giving you complete control over brightness for focused tasks or ambient glow.The lamp includes one LED module, offering efficient and powerful light. The Equilibrist Desk Lamp makes a striking sculptural statement while providing unparalleled lighting flexibility for any modern workspace or creative environment.
