Piano Mono Wall Light

By Artemide

Description

The Piano Mono Wall Light offers a sleek and understated design, providing precise, direct illumination that elegantly enhances any wall surface. This refined fixture features a durable cast-aluminum body, ensuring both structural integrity and a clean, modern aesthetic. Its sophisticated finish is applied through a powder-coating process, available in versatile options: a crisp White, classic Silver, rich Bronze, or deep Anthracite Grey. Light is softly diffused through a frosted plastic diffuser, ensuring an even glow without harshness. For tailored ambiance, the Piano Mono Wall Light offers a choice of 3000K (a warm white light) or 3500K (a slightly cooler, more neutral white light), allowing you to fine-tune the illumination to your preference. It is conveniently dimmable via 2-Wire dimming, providing effortless control over light intensity. This wall light is an ideal choice for hallways, stairwells, or as an accent light to highlight architectural details with its understated elegance and precise light output.

Specifications
