Tetragono Outdoor Bollard

By Artemide

Description

The Tetragono Outdoor Bollard offers a refined and enduring solution for illuminating pathways, garden features, and outdoor areas with a clean, contemporary aesthetic. This stylish bollard is constructed from an extruded aluminum square pole, ensuring both robust structural integrity and a striking presence in your landscape design. Its Anthracite finish benefits from a comprehensive 3-stage outdoor treatment, delivering exceptional longevity and resistance to environmental factors. Light emanates through a UV-resistant diffuser, crafted from shock-resistant polycarbonate, which ensures consistent light quality and durability against outdoor exposure. Featuring an integrated LED module, the Tetragono Outdoor Bollard provides efficient and dependable illumination. It's available in two versatile heights: 17.7 inches or 35.4 inches, both with a consistent 5.13-inch square base, allowing for tailored placement to suit your specific lighting design needs. This bollard is UL listed for wet locations, guaranteeing its safety and performance in exposed outdoor settings, making it an excellent choice for modern landscape lighting.
