

BRAND Catellani & Smith

DESCRIPTION

The Lederam W Wall Sconce features sinuous, curved lines for a contemporary geometric expression. The LED light source is housed in between two aluminum discs with a metallic Gold or Copper Leaf finish that reflects light backwards onto the wall to create a striking halo effect. The front disc's position can be adjusted to change to angle of the light cast from the sconce. Includes white or black mounting plate to cover standard US junction box.
