Iris Table Lamp

By MacMaster

Description

Iris Table Lamp consists of curved laminations of timber that echo the shape of Iris leaves to create a sculptural, unique and impacting form. The arrangement of leaves give the lamp a structured yet organic form that allows light to graduate upwards on the interior of the lamp. An energy saving light bulb is utilized for a warm ambient light that casts subtle shadows onto adjacent walls, thereby extending the visual depth of the design available in Oak or Walnut finish. One 20 watt 120 volt medium base compact fluorescent bulb is required, but not included. 14.5 inches wide x 35 inches high.

Specifications
