Pirce Micro Suspension

By Artemide

Description

The Pirce LED Micro Suspension is more than just a light source; it's a captivating piece of art that enchants your space. Its distinctive form features a white aluminum spiral, meticulously crafted into graceful, concentric rings that appear to float effortlessly. This artistic design serves as both an elegant luminaire and an alluring decorative element. Suspended by delicate stainless steel cables, the fixture maintains an airy and sophisticated presence. When illuminated, the integrated LED technology interacts beautifully with the intricate spirals, casting a mesmerizing play of light and shadow that animates the surrounding environment. You can customize your ambiance with a choice of 2700K (a warm, cozy light) or 3000K (a slightly less warm but still inviting light), allowing you to fine-tune the mood. Available in two cable lengths, the Pirce LED Micro Suspension offers flexibility for diverse ceiling heights, making it an ideal focal point over a dining nook or a striking accent in a contemporary living space.
