Pirce Micro Wall Light

By Artemide

Description

The Pirce LED Wall Light is a captivating sculptural piece, transforming light into an artistic cascade of organic forms. This stunning fixture features a meticulously hand-painted aluminum spiral shade with a pristine White finish, creating a striking visual interplay of light and shadow on your wall. Its unique design is composed of slender, concentric rings that seem to peel away from a central point, creating a mesmerizing three-dimensional effect. When illuminated, the integrated LED light source beautifully interacts with these delicate spirals, casting intricate patterns that animate the surrounding surface. For tailored ambiance, the Pirce LED Wall Light offers a choice of 2700K or 3000K color temperature. This fixture is an ideal choice for adding a dramatic artistic statement to hallways, living rooms, or any modern interior that benefits from a unique and compelling lighting design.
