Tolomeo Double Suspension

By Artemide

Description

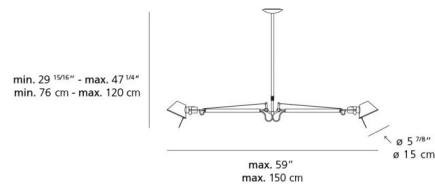

The Tolomeo Double Suspension brings the celebrated articulation and versatile illumination of the Tolomeo series to your overhead lighting, creating a dynamic and highly functional centerpiece. This impressive fixture features an adjustable chrome stem, allowing you to set the perfect drop for your space, alongside the signature, fully adjustable extruded aluminum arms. The hallmark of this suspension is its two 360-degree rotating aluminum diffusers, which provide exceptional control over light direction. This allows you to illuminate multiple areas simultaneously, making it ideal for large dining tables, extensive kitchen islands, or long workstations where adaptable lighting is essential. Designed for robust performance, the Tolomeo Double Suspension requires two 100-watt max 120-volt medium base bulbs (not included), giving you the freedom to choose your preferred light sources. This suspension light combines iconic design with unparalleled lighting flexibility for modern living.
