Tolomeo Shade Desk Lamp with In Set Pivot By Artemide

Description

The Tolomeo Shade Desk Lamp with In Set Pivot offers a supremely integrated and flexible lighting solution for built-in applications, embodying the hallmark adjustability of the iconic Tolomeo series. This refined fixture features a precisely engineered extruded aluminum arm, alongside polished die-cast aluminum joints and tension control knobs, allowing for fluid and precise articulation. Its unique die-cast aluminum in-set pivot is designed for seamless integration into your desk or surface. This pivot requires a surface thickness of 0.5 to 2.5 inches and a 0.75-inch diameter hole, ensuring a clean, low-profile installation that maximizes workspace. The lamp is elegantly finished with a classic shade, available in either a textured Grey Fiber or a warm Parchment, providing soft and inviting light diffusion. The lamp requires one 75-watt max 120-volt medium base bulb (not included), enabling you to personalize your light source. This Tolomeo variant is ideal for custom built-ins, executive desks, or integrated workstations where a streamlined aesthetic and unparalleled directional lighting are paramount.

Specifications
