Tolomeo Shade Off Center Suspension

By Artemide

Description

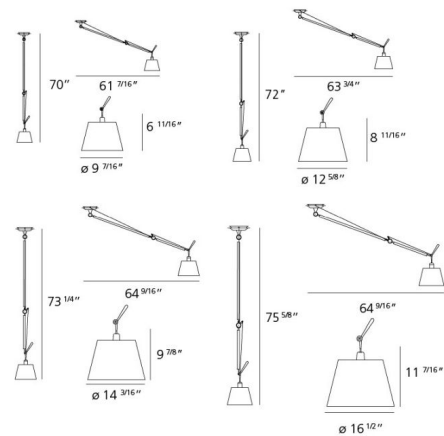

The Tolomeo Off Center With Shade Suspension masterfully extends the iconic functionality of the Tolomeo collection, offering unparalleled adjustability and versatile illumination for spaces where a central junction box isn't an option. This ingenious fixture features beautifully polished aluminum arms, embodying the signature articulation and precision engineering of the renowned Tolomeo series. Its fully adjustable, articulated arms combined with a rotatable canopy allow for exceptional flexibility, enabling you to direct light precisely where it's needed, even when the power source is off-center. This makes it an ideal solution for illuminating dining tables, large desks, or seating areas without the constraints of fixed wiring. The suspension is complemented by a classic shade, available in either a sophisticated Grey or a warm Parchment, allowing you to tailor the aesthetic to your decor. It requires one 100-watt max 120-volt medium base bulb (not included), giving you the freedom to choose your preferred light source. Furthermore, the Tolomeo Off Center With Shade Suspension is offered in four versatile shade sizes, ensuring a perfect fit and scale for any room.
