Dalton Table Lamp

By Adesso

Description

With clean, simple lines, a metal finish, and vintage Edison bulb, the Dalton Table Lamp integrates seamlessly with industrial and modern chic styling. This lamp's small footprint and narrow profile make it a space efficient choice for desks, nightstands, and end tables. Anchored by a rectangular base crafted of metal, a matching narrow pole extends straight before meeting with a short arm at a 90 angle. Suspended from the arm is a luxuriously styled glass cylindrical shade that leaves the included 40W Edison tube bulb visible for striking, vintage appeal. The lamp is easily operated by a discreet rotary switch located on the base.

Shown in antique brass / clear
