Cabildo Wall Light

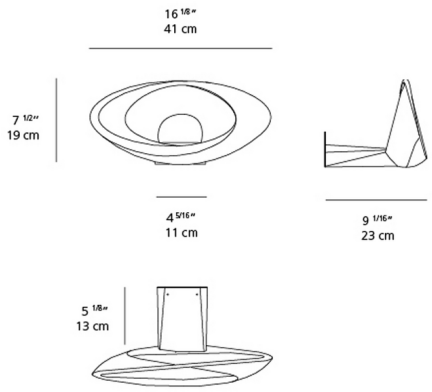

By Artemide

Description

The Cabildo Wall Light is a compelling blend of sculptural form and innovative illumination, designed to provide subtle yet powerful light with refined elegance. This distinctive fixture features a pristine White finish that seamlessly integrates into modern interiors while making a sophisticated artistic statement.Its ingenious design incorporates a specular reflector that cunningly conceals the integrated 29-watt 120-volt light source within the inner curve of the head. This clever engineering ensures that the light source remains hidden, preventing direct glare while creating a beautiful, indirect, and diffused light distribution that washes the wall with a soft, inviting glow.For tailored ambiance, the Cabildo Wall Light offers a choice of 2700K or 3000K color temperature, allowing you to select the perfect warmth for your space. This fixture is an ideal choice for enhancing hallways, creating captivating accent lighting in living rooms, or adding a touch of modern artistry to any wall surface.
