## Cabildo Wall Light By Artemide

## Description

The Cabildo Wall Light is a compelling blend of sculptural form and innovative illumination, designed to provide subtle yet powerful light with refined elegance. This distinctive fixture features a pristine White finish that seamlessly integrates into modern interiors while making a sophisticated artistic statement. Its ingenious design incorporates a specular reflector that cunningly conceals the integrated 29-watt 120-volt light source within the inner curve of the head. This clever engineering ensures that the light source remains hidden, preventing direct glare while creating a beautiful, indirect, and diffused light distribution that washes the wall with a soft, inviting glow. For tailored ambiance, the Cabildo Wall Light offers a choice of 2700K or 3000K color temperature, allowing you to select the perfect warmth for your space. It is conveniently dimmable via 2-wire dimming, providing effortless control over light intensity. This fixture is an ideal choice for enhancing hallways, creating captivating accent lighting in living rooms, or adding a touch of modern artistry to any wall surface.
