## Peak Outdoor Wall Sconce By Visual Comfort Modern

## Description

Featuring a highly pitched roofline, the Peak Outdoor Wall Sconce is reminiscent of a charming clapboard shingle. Cleverly hidden hardware ensures a clean look, while the LED downlight gently grazes the backplate and delivers a welcoming ambient glow. The light is warm dim, 3000K at its brightest and warming to 2200K as it dims. Die-cast aluminum construction, a powder coat finish, and stainless steel hardware provide durability. Perfect for front door lighting or for illuminating a back porch or patio, the Peak offers a polished look for your space.

Shown in bronze
