## Fett Pendant

By Visual Comfort Modern

### Description

The Fett Pendant Light is a significantly scaled pendant light and cohesively blends its characteristic domed silhouette with its incredibly deep, weathered zinc finish. Its wonderfully imperfect signature texture is naturally created during a meticulous molten aluminum sand casting process that results in a noticeably thick shade that projects a truly monolithic presence. One 150 watt, 120 volt G40 medium base lamp is required, but not included. Supplied with twelve feet of field cuttable suspension cable and a 4.5 inch round canopy. ETL listed. 17.7 inch diameter x 18.3 inch height x 162.3 inch overall length.

Shown in weathered zinc
