

BRAND

CoeLux

DESCRIPTION

Designed for installation in ceilings, the ST Tivano Linear Louver Artificial Skylight offers a reflected view of sunlight which appears fragmented. As you walk under the skylight, you will notice that a trail of light constantly follows you, just like if you were walking by the lake or the sea looking at the reflection of the sun in the water. The main feature of Tivano is maintaining the component of the sun and the sky separated in the reflection process. This way, the lit room is rich in chromatic contrasts and brightness as if it was natural light made up of the warm direct light of the sun that lights up the side walls, and of the blue light of the sky. The CoeLux St Tivano is ideal for use in offices, hotels, hospitals, wellness centers and residences alike. Skylight size is 20.9 inch length x 11.8 inch width. Overall Dimensions: 23.7 inch length x 24.5 inch width x 15.9 inch depth. Additional installation and freight charges may apply.

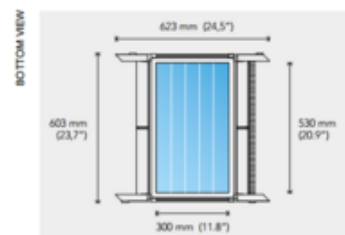

SHADE COLOR	Mirror
BODY FINISH	White
WATTAGE	45W
DIMMER	Not Dimmable
