Tolomeo Shade Wall Light Hardwired

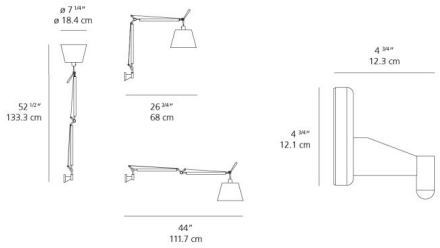

By Artemide

Description

Experience the iconic flexibility and refined aesthetic of the Tolomeo series in a seamlessly integrated wall-mounted form with the Tolomeo Shade Wall Light Hardwired. This elegant fixture features a sophisticated Parchment or Grey Fiber shade, providing a soft, ambient glow that creates a warm and inviting atmosphere. The shade is beautifully complemented by an aluminum finish structure, embodying the classic Tolomeo design. Designed for permanent installation, this wall light is suitable for mounting directly to a wall electrical junction box with a J bracket for direct hard wiring, ensuring a clean and professional look with no visible cords. This fixture makes a graceful statement without overwhelming your space. Note: For hardwire installation, the cord typically needs to be shortened and the plug removed by a qualified electrician, ensuring a custom fit and finish. Customers consistently praise its timeless design and beautiful, diffused light, making it a perfect contemporary choice for bedrooms, reading nooks, or living areas where a sophisticated, hardwired lighting solution is desired.
